

# Columbia Pinwheel

## Foundation-pieced Border

For those who prefer to use paper-foundation piecing, we're providing a pattern for the border of half-square triangles for *Columbia Pinwheels* (see *QNM* May 2005 for the entire pattern) Trace or photocopy the pattern 34 times and join the sets to make 2 strips with 24 squares and 2 strips with 26 squares. On the strips with 26 squares, cut off the last square on both sides and reposition as shown in the quilt assembly diagram; tape in place. Foundation piece alternating triangles of blue and green prints to these strips. Continue with the directions given in the pattern to complete the quilt.

*Note:* We squeezed 3 copies of the pattern onto this page for you.
