

## Tree Pattern

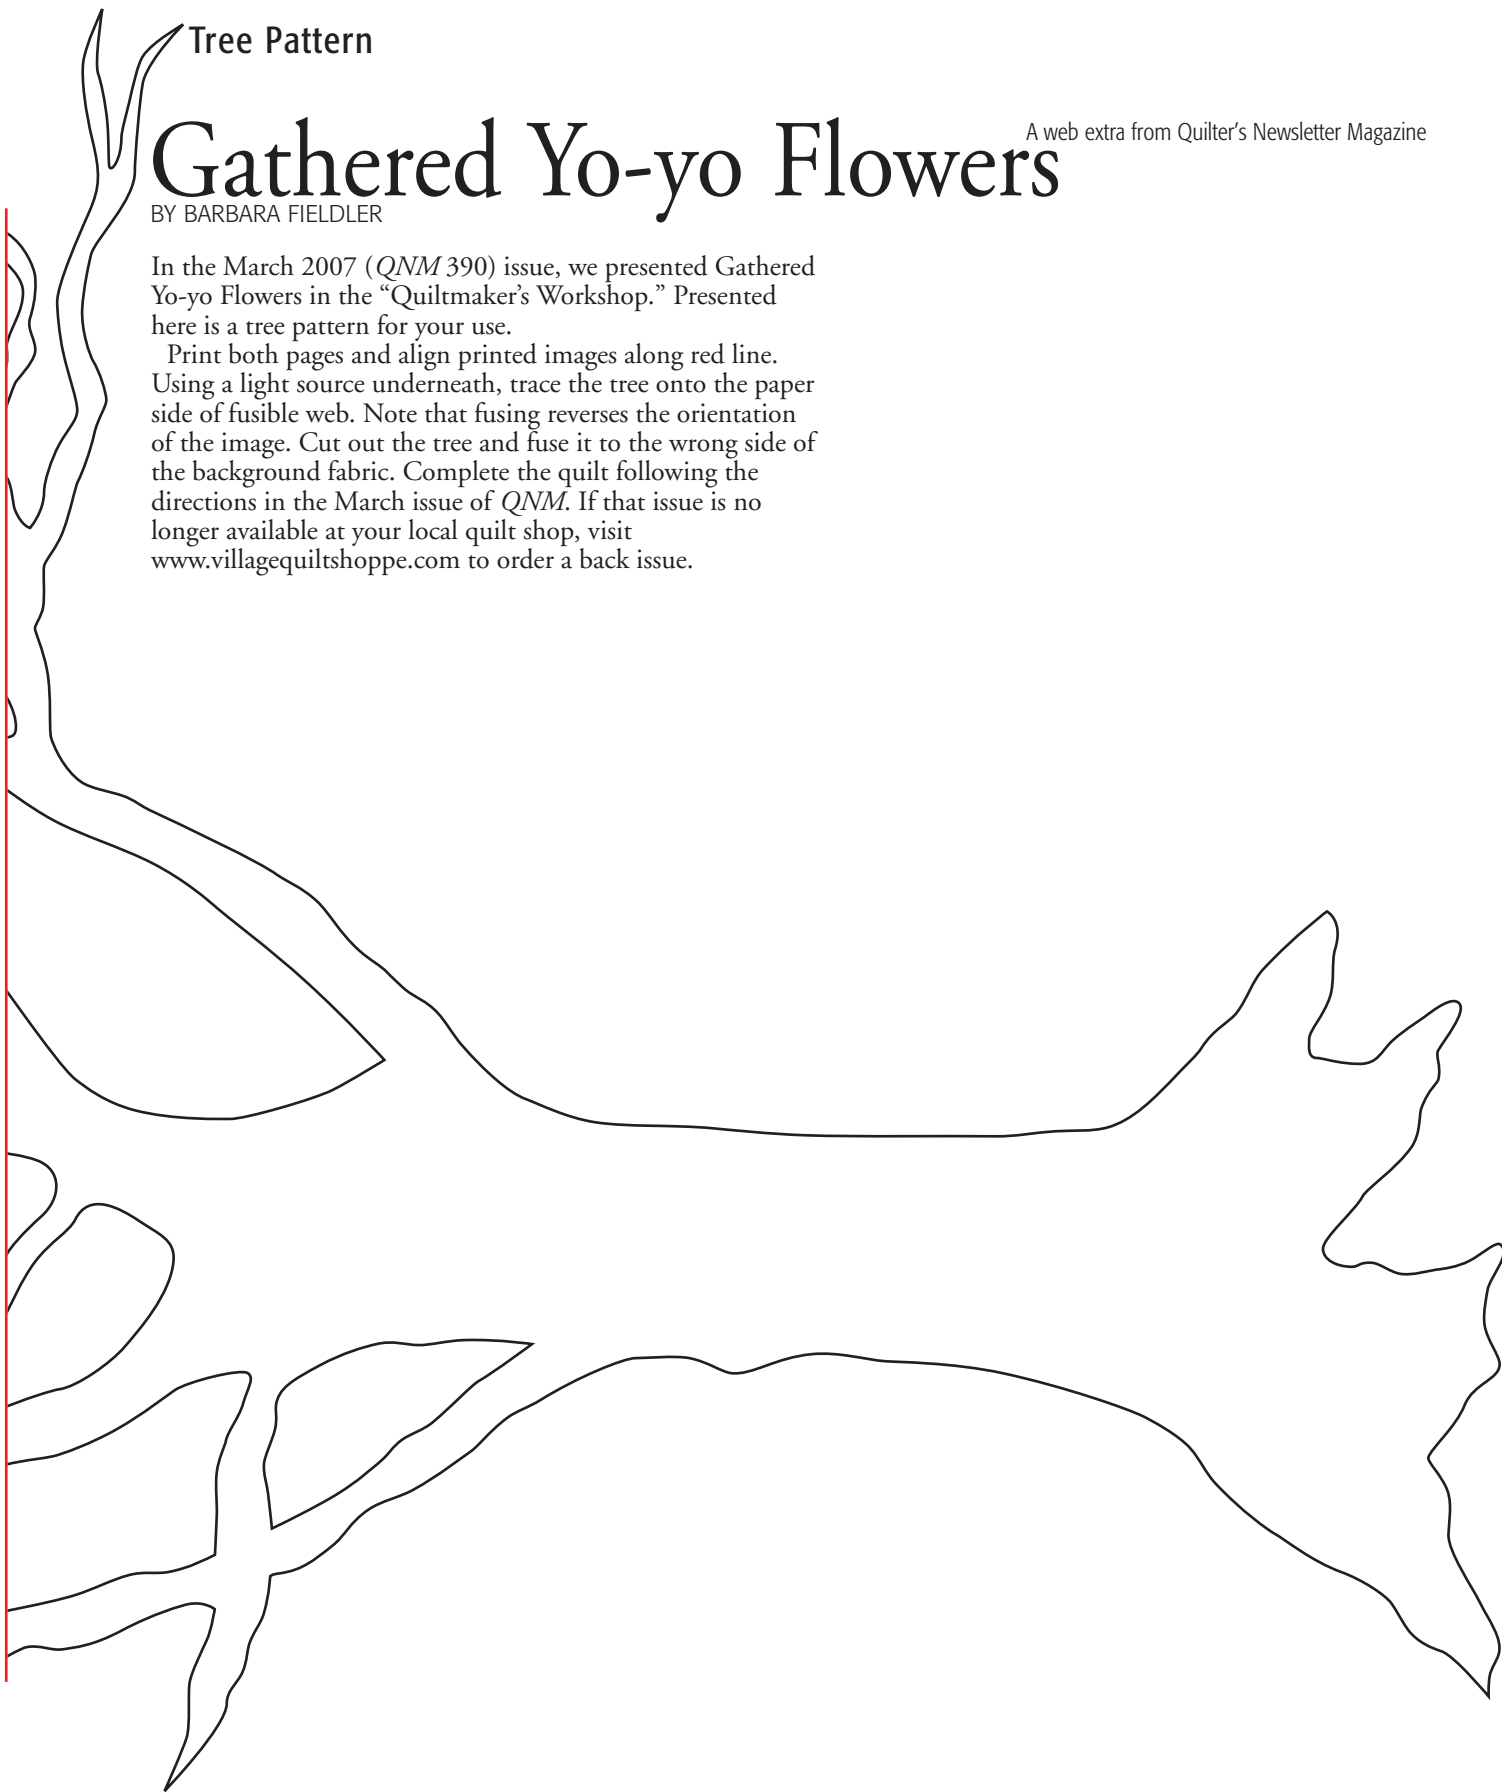

# Gathered Yo-yo Flowers

A web extra from Quilter's Newsletter Magazine

BY BARBARA FIELDLER

In the March 2007 (*QNM* 390) issue, we presented Gathered Yo-yo Flowers in the "Quilter's Workshop." Presented here is a tree pattern for your use.

Print both pages and align printed images along red line. Using a light source underneath, trace the tree onto the paper side of fusible web. Note that fusing reverses the orientation of the image. Cut out the tree and fuse it to the wrong side of the background fabric. Complete the quilt following the directions in the March issue of *QNM*. If that issue is no longer available at your local quilt shop, visit [www.villagequiltshoppe.com](http://www.villagequiltshoppe.com) to order a back issue.
