

Skinny Bias Stems

In the October 2007 *Quilters Newsletter* (396), the “Easy Lesson” featured Sandi McMillan’s technique for making skinny bias stems by machine. Here is Sandi’s pattern for A Peek at Spring. Print the full-size pattern on 11” x 17” paper. Use a washout fabric marker to trace the applique and embroidery pattern on the right side of the background fabric.

A Peak at Spring
