

Brother & Sister Quilt

This series quilt in *Quilter's Newsletter Magazine* Nos. 313-317 (June-November 1999), was designed by Nancy Page in the 1930s. Although Nancy Page's original quilt designs did not include little boy figures, just the girl dolls, we thought it would be fun to include a couple of boy motifs.

QNM artist Deidre Adams has designed these two figures that are compatible with the little girls. There are three hat choices, patched overalls, and shorts to add variety. The sailor boy is 6" from head to toe, and the overalls boy is 5¾" tall. If needed, enlarge or reduce the pattern to fit your needs by either changing the percentage they will print (an option that may be found on your page setup menu), or by enlarging or reducing the pattern on a photocopy machine. *Note:* To print the pattern at the intended size through Acrobat Reader, make sure the 'Print To Fit' option is unchecked in the **Print** dialog box.

Add 3/16" turn-under allowances to all patches for traditional appliqué.

+ indicates center of the A patch.
